MEETING OF CHRISTIAN ENDEA-VORERS IN ALEXANDRIA.

YESTERDAY SESSION Reports Show That the Organization

Spreading and Doing Good Work-The Funeral of Young

ALEXANDRIA, VA., September 16.

(Special.)-The Christian Endeavorers, after some early morning meetings, began the day's routine at 9 o'clock, Mr. S. P. Berry, of Broadway, lending the song serwice, and Mr. Overdorf, of Staunton, the Bible talks. President Kennedy, of Lexington, made

his report. He reviewed the field, said that the organization in Virginia numbered 10,000 members, and was steadily growing in membership, usefulness, and THE ORGANIZATION GROWING.

There were 260 societies in State, twenty-two new ones during the yeareighteen being senior and four junior organizations. He spoke of the individual work feature of the organization, and recommended the organization of departments for the benefit of prisoners in jails and the State penitentiary, and for seamen and watermen or their families in various sections, especially about Norfolk and Newport News. He wanted to see more district unions, and offered a number of suggestions thereunto. The report went well

Secretary Lewis's report was read by Mr. Richard Henry Bell, Jr., of Staunton, and Treasurer Lovegrove's report showed organization to be on a fine financial basis.

GOOD REPORTS.

Miss Annie Lind Forssberg, of Lynchburg, sent an interesting and carefully-prepared paper on junior work, which was read by Miss Mary Penn, of Alexandria. A report on the press by Professor Howe, of Washington and Lee, was read. Rev. Daniel W. Montgomery spoke for an hour on the power of the organization, after which the delegates lunched in the Methodist Protestant lecture-room. William Cumming, of Baltimore,

began the afternoon session with an ad This was followed by Mr. Reginald Walker, of Richmond, whose theme was "Go Or Send." After some general talk and discussion on committees and missionary matters the meeting adjourn-

CHANGE OF PROGRAMME.

The absence of Dr. Henry M. Wharto of Baltimore, and Rev. Dr. Steward, of Harrisburg, Pa., caused two changes in the programme. Rev. Dr. Hamlin, of Washington, will probably take their places. The meetings to-day were at the Southern Methodist church and were well attended. Many members of the Wash-

Ington organization were present.

To-morrow officers will be chosen, the pext meeting-place will be set, and the lelegates will be taken to Mount Vernon. There was an increase of delegates to-may, but some of the stronger lights of order are attending other meetings far away. Most of the delegates will re

main over Sunday.

YOUNG CAMPBELL'S BURIAL Young Campbell was buried from the thodist Protestant church this after-on. The edifice was full and hundreds stood without. As mentioned in a pre-rious dispatch, this bright 17-year-old lad, pidest son and hope of Loudon Campbell, for years upon years engineered the Col-umbia Fire Company, went off with the Washington Regiment as a musician and law service amongst bullets and shells at Santiago, only to succumb to fever while en route home. The remains were enrased in a copper casket, placed in a plain box, cased with iron handles. A flag cov-ered the whole, and a dozen of the most magnificent floral pieces ever seen here The choir, to which he once belonged,

rhanted a requiem, and "Jesus, Lover of My Soul," was sung by the congregation. There was a prayer and a solo by a mem ber of the district command, and an ad ess by Pastor Revelle, during which there seemed few persons who did not cry Thirty members of the Mt. Pleasant Drum Corps acted as escort to the Bethel Cemetery. Six members of the Third Virginia Regiment Field Band were the ac tive pall-bearers, and ten comrades of deceased marched with floral pieces form. behind the hearse. Hundreds went out to

SOUNDED BY THE BUGLE After the grave had been filled and rounded in, a boy bugler, who was with Campbell at Santlago, stood at the head

of the grave and blew "Taps."

As the long, low, sadly sweet notes o the bugle echoed back from Old Fort Elsworth, and across the Valley from Williard and Lyon, many old soldiers who stood near were visibly affected, too. It was really the first real soldier funeral here since the civil war, when there were sometimes a hundred deaths in a day, The Hebrews began their New Year a sundown, with services in the synagogue by Rabbi E. C. Mayer, of Baltimore. Vandyke Johns continues very ill with

LIEUTENANT FLAGG'S FUNERAL

Arthur Ingersoli Flagg, the young lieutenant of Captain Willard's Fairfax Company who succumbed to typhoid-fever Wednesday night, was laid to beside his father in Oakwood buryingground-perhaps the most beautiful spot in Fairfax-this afternoon. Never was there such an outpouring at a funeral in Perhaps 2,000 gathered at

The services there were conducted by neighboring clergy, the Episcopal ritual being read. While at the grave the services were conducted according to Ma-sonic rites. Nearly all of the Fairfax

company acted as escort.

The pall-bearers were 'Surgeon' Smith.
Captain Willard, Lleutenant Melkens, of
the District of Columbia Volunteers, Dr.
Quick, of the Methodist Episcopal Church,
and George Taylor Mankin.
Six non-commissioned officers of the

Six non-commissioned officers of the Fairfax company bore the coffin, which was covered with the flag, and a bugler sounded "lights out."

The Alexandria Knights Templar are making preparations for their Pittsburg trip. To-night a number of degrees were conferred on candidates from near-by places. Old Dominion Commandery expects to carry 100 swords and some ladies.

INJURES THE MAINS.

WATER PIPES BADLY AFFECTED BY THE ELECTRIC RAILWAYS.

HONEYCOMBED WITH ELECTROLYSIS.

Tests Made Recently Show That the Damage is Extensive-The Companies Are Responsible-Contract for Water Meters.

The Council Committee on Water has nother grave problem besides the filtering of the James-river product confronting them. Superintendent Bolling made a startling report at the meeting held in the City Hall last night, to the effect that the water mains on those streets where the electric cars run are in a very bad condition as a result of the action of the current. Electrolysis, the technical term for the defect, is the honeycombing of the pipes, and Mr. Bolling said he had been compelled for some time past to keep a gang of men employed making repairs, and in consequence the work of putting in water meters had been practically stopped.

In 1886 an ordinance had been passed by the City Council, making it incumbent upon the street-railway companies to put in underground wires, which would attract the current and carry it back to the power-house. This ordinance had not been complied with, and tests made recently showed that the mains were in a very bad condition as a result of the action of the electricity.

SEVENTH-STREET MAIN AFFECTED. The large main which passes the storage battery of the Richmond Railway and Electric Company, on Seventh street be-tween Grace and Franklin streets, said Mr. Bolling, was very badly eaten by electrolysis, and this company, which had hitherto made all repairs of this nature, had ignored a communication sent them on the subject ten days ago.

The committee discussed the situation, and Messrs, Mills, Montgomery, and Cutchins were appointed a committee to confer with the City Attorney as to what steps might be taken. It was developed during the debate that the company is liable to a penalty of \$50 a day for each day that it fails to repair damages after it has been notified of their existence, nd some steps may be taken to enforce it.

TO PROVIDE CLEAR WATER. The chairman appointed Messrs. Zimermann and Fergusson to act with him self in considering methods to provide clear water for the city, and a motion made by Mr. Montgomery that \$25 should be appropriated for making an analysis of the James-river water was adopted. A petition was received from Messrs. & Lorraine and Samuel H. Cottrell, who have the monopoly of street sprinkling in this city, asking for a reduction of the present rates for water used by

introduced by Mr. Zimmermann, to th effect that the gentlemen should be credit-ed for such days and half days that their sprinklers were not worked during the next twelve months, was adopted.

The relative merits of the Hersey, Mc-Gowan, and other water meters were discussed. Bids for supplying the departments with meters were received from Smith-Courtney Company, John H. Mc Gowan Company, G. & A. Bargamin, and the Southern Railway Supply Company. In every instance the bids were the same, each arm being subject to the combine, and on motion of Mr. Montgomery it was to divide the orders among the four bidders.

CAPT. LAMB TO DEMOCRATS.

He Delivers an Instructive Address Before the Monroe Club.

Congressman John Lamb made a very arnest and interesting address before Captain Lamb was followed with close attention by those who were present He spoke of the difficulties which beset the Richmond Locomotive-Works and Richmond College bills, and then passed to a review of the situation. The difference between the parties was not, as conservative Republicans were apt to say, the tariff; that, said Captain Lamb, was a local and business question. The real issue was the "battle of the standards." There would be no financial panies if there were plenty of money. There was not money enough in this country for business purposes, he affirm-ed, and then went on to criticise the last report of the Treasurer of the United States, showing that of the \$530,000,000 supposed to be in circulation, \$148. 000,000 was in the Treasury and \$170,000,000 in the banks, but the balance was not in evidence. Captain Lamb said he did not propose to touch upon the mismanagenent of the war. Congress would be called upon to investigate that, and he would be one of the judges, he did not wish to go into that investigation with his judgment clouded on one side or

the other.

Everything looks bright, he said, for the rats from Virginia to the next Congress The present canvass would be pushed by him, the speaker said, just as earn estly as if Judge Lewis were running backed by Hanna's money bags. spoke earnestly against territorial ex-pansion, particularly against the annexation of islands 7,000 miles from this Continent, and by so doing becoming involved in the eastern question. He said that Democrats everywhere should stand firmly and squarely on the Chicago plat-

THE HISTORY REPORT.

Chairman Royall Replies to Brent's Criticisms.

Mr. William L. Royall, the chairman of the History Committee of the Grand Camp, Confederate Veterans, of Virginia whose report severely criticised the action of the State Board of Education in placing the histories of Fiske and Cooper Estill & Lemon on the school list, and was in turn scored by Mr. F. P. Brent, secretary of that board, gave the follow-

ing interview to the press yesterday: "I have nothing whatever to say in my character as chairman of the History Committee, and the report speaks for it-self, and will, I think, take care of itself; but as William L. Royall, the individual, I must protest against Mr. Brent's treat-ing the document as my individual report. "It is the unanimous report of the History Committee of the Grand Camp, Confederate Veterans.

INSPECTED THE BOOK. "I must also protest against Mr. Brent's Intimation that I get my views from in-terested critics. I get my views from an inspection of the books themselves, and as an individual I wish to repeat what I have said as chairman of the History Committee. I will never permit my son, in the formative period of his mind, to be taught the views of the southern peo-ple and the Confederate soldier that are to be found in those books.

"I may add that I cannot quite understand Mr. Brent's assuming the responsibility for Fiske's History being on the list. He is only the secretary of the Board of Education, and has no voice in the se-lection of books to go upon the list. That is the function of the board itself, and it cannot abdicate its function.

"But as he actually, according to his own account, imposed Fiske upon our schools, I would like to ask him a ques-

"He says he was aware of some of its blemishes, and had written Mr. Fiske and his publishers, urging certain modifications and corrections, the inference being that the Brooks-Sumner matter was one of the blemishes. He then says that when the board was considered the propriety of placing Fiske's History on the list. Governor Tyler asked him if it contained any statements prejudicial to the South. A PERTINENT QUERY,

"Now, I would like to ask him if h pointed out to Governor Tyler that Fiske summer matter that the people of South vote, sent back to Congress a man whom Fiske represents as a person who had at-tempted to assassinate Charles Sumner? "I do not know that after being in ses-sion here for weeks the Board of Educa tion would be willing to admit Mr. Brent's ensibility as to selecting all the books, but I am disposed to believe that they will be willing to allow Mr. Brent all the

responsibility for Fiske's." MR. BRENT REPLIES. Mr. Brent makes the following reply in newer to Mr. Royall's strictures

"I do not deem it necessary to say any thing further in reply to Mr. Royall, as he has not attempted to refute any statement made by me in regard to his inconsiderate report to the Grand Camp on the history question. The more closely I examine his report the more I m convinced of its inaccuracies and its For instance, he quotes the Brooks Sumner incident from an old edition of Fiske's History, in which Brooks is represented as having approached Sumner from behind. The edition in possession of the State Board of Education contains no such statement. It had been changed before the book was ever of-

fered for adoption.
"Knowing Mr. Fiske to be a great historian and a fair-minded man, I wrote to him and his publishers, Messrs. Hough-ton, Mifflin & Co., of Boston, callattention to certain statements that I considered unfair to the South In a few days I received the following reply from Houghton, Mifflin & Co.:

"'We note your statement that there are certain things in Mr. Fiske's History that you would like to see changed. We assure you that any suggestion you may make will be very carefully considered, for it is Mr. Flake's wish, as well as our own, that his book shall be historically accurate. We know that his interest in Old Virginia is such that he will listen Monroe-Ward Democratic Club last night, with a very attentive ear to any suggesyou may be kind enough to send. He has already consented to

> THE QUESTION ANSWERED. "This letter, written on the 4th day of August, 1808, shows the spirit of the uthor and the publishers of the book. 'Mr. Royall asks me whether I told Governor Tyler that Fiske represented the people of South Carolina as having sent back to Congress by an almost unani-mous vote a man who, according to Fiske, had attempted to assassinate Sumner. No. I did not, because such a statement would have been as unjust to Fiske as Mr. Royall's criticism of the book is to the author and the Board of Education. I do not see that Fiske's statement, even as quoted by Mr. Royall, shows anything more than the excited and inflamed con dition of the public mind in South Caro We have no more to do with de fending the conduct of Preston Brooks than we have with defending the cruel tyranny of General M. C. Butler in his recent treatment of the Third Virginia

> HE HADN'T SEEN IT. "Mr. Royall objects to my treatment of the report as his individual production He says it is the unanimous report of the History Committee of the Grand Camp. Four members of this committee are re-ported to have been present yesterday when the report was read and adopted. Mr. M. W. Hazelwood, one of the mittee, told me to-day that he had never seen a copy of Fiske's History. And yet he is reported as having voted for Mr. Royall's report. Touching Cooper, Estill & Lemon's History, I will say that Mr. Estil, one of the authors of the book, and Ginn & Co., the publishers of it, assured Dr. Southall that all inaccuracies would be corrected and all objectionable passages would be eliminated. Royall had taken the trouble to consult any member of the State Board of Edu-
